Payment Details

Please indicate the following:

Name of account Manager:	
Email address:	
Telephone number:	

Please specify the desirable form of payment for the diagnosis fee:

- Cheque enclosed
- Already made a payment
- Cash Payment

For debiting your Credit Card directly please state the following details:

Name of Card Holder:	
Card Number:	
Expiry Date:	

Terms and Conditions

1. Legal Rights:

The client is the legal owner, representative, or otherwise have legitimate rights to the property and all data contained therein sent to Electroclinic Ltd.

2. Limited Liability:

Electroclinic, shall not be liable for any claims regarding the physical functioning of equipment/media or the condition or existence of data on storage media supplied before, during or after service.

Electroclinic is not liable for any direct or indirect damages, including loss of data, loss of revenue, incidental or consequential, before, during or after service.

3. Confidentiality:

Electroclinic, its officers and employees agree to absolute Non - Disclosure of any and all information or data files supplied with, stored on, or recovered from client equipment.

4. Authorization:

The client authorizes Electroclinic, its employees, and agents, to receive and transport this media/equipment/data to, from and between their facilities.

Any property left with Electroclinic Ltd for 10 days further to recovery will be disposed.

All media that has been authorized by the sender or his/her representative to have its seal opened within our laboratories further to carrying out a successful recovery attempt shall be disposed by Electroclinic.

5. Payment:

Payment is due in full upon completion of successful recovery, prior to release of data (whether shipped, picked up or downloaded), unless by special previous arrangement. If Electroclinic carries out the recovery successfully, full payment must be made for the recovery regardless of whether the data is relevant / required or not.

If the client approves the quote, but declines to continue with the recovery work, the client shall be charged 85% of the quoted price in Order to compensate Electroclinic.

Payment shall be made within 7 days of receipt of an invoice.

Under the late Payment of Commercial Debts (Interest) Act 1998 the right to charge interest at base rate plus 8% on any balance outstanding after 30 days is reserved.

6. Media Warranty:

Electroclinic Ltd gives warranty on all returned newly supplied media found to be dead on arrival (DOA) within 10 days of shipment. Any additional warranty claims must be presented to the original manufacturer. Electroclinic Ltd keeps all recovered data for 5 days to insure against DOA instances.

7. Shipping:

All shipping matters are the responsibility of the customer, regardless if the data is recovered or not, Electroclinic may use on behalf of the customer or recommend certain courier agents without any responsibilities. The client is the sole responsible party for the shipping that Electroclinic may arrange on the clients behalf.

Electroclinic shall cover the cost of collection and delivery of any media up to a maximum weight of 5kg. Any media or Materials over the weight of 5kg, a surcharge shall be added of the additional cost charged by the courier company used.

Shipping instructions:

▶ If at all possible, remove the media from the computer with careful considerations taken with the following points:

ESD (Electrostatic Discharge), a familiar form of Electrostatic Discharge, often called "static electricity", is the shock we receive after walking across a carpet. In a technical environment, ESD can be very costly by harming devices or components. ESD may cause a catastrophic failure that appears immediately or a latent failure in which gradual degradation occurs during use, resulting in eventual failure.

Before moving a computer, hard drive or other component, discharge personal static build up by touching a grounded metal object, such as a plugged-in computer chassis.

Handle a hard disk drive as you would handle an egg. Handle failed hard disk drives with the same care as new drives.

▶ Use the original shipping materials, if you still have them. If not, they are relatively easy to replicate:

Wrap media in an anti-static bag or similar material to prevent ESD.

Use a box that is at least twice the size of the media so that the media can be suspended in the middle of the box. We recommend a minimum of two inches of insulation all around for a 2 lb. drive.

Pack securely with foam, bubble wrap, or newspaper so the media will not move from the middle of the box. Avoid using peanuts as contents will settle to the bottom of the box. Make sure to place the media in a robust shipping box. Ensure the media is statically positioned within the box.

If sending a computer, laptop or notebook, use great care to ensure proper cushioning and protection. We recommend at least 6 inches for insulation. The heavier the unit, the more insulation required.

Wrap the Computer securely in at least two layers of bubble wrap.

Mark the outside of the package "FRAGILE - HANDLE WITH CARE".

Please make sure to leave the box at the front reception desk otherwise the courier Driver might not be able to collect the media.

Failing to address any of the above, we do not take any responsibility if the media is damaged, lost or stolen

▶ Please make sure that the payment is either enclosed or that you have added your card details in the request form, otherwise the diagnosis will not commence until the diagnosis payment is made.

Please feel free to use the address below as a label to be attached to the packaged box
